

Blue Ridge Safety and Health Training

Blue Ridge Safety and Health specializes in educational classes for workplace safety and illness or injury care. Marvin Huddleston is the owner.

Marvin is a retired fire captain and additionally worked over twenty years as a paramedic with the city of Roanoke. Marvin was also a paramedic with the Roanoke Sheriff's Department, flew on Lifeguard 10 medical helicopter, and volunteered with numerous Lifesaving Crews.

The other instructors for Blue Ridge Safety and Health are all veteran instructors, ranging from retired fire chiefs to active school educators.

Classes Offered

CPR/AED

Description: This course covers adult CPR and the use of the Automatic External Defibrillator (AED). This technique has been shown to be more effective than C.P.R. in a cardiac arrest. Students also learn how to deal with conscious and unconscious choking patients.

Course validation period: 2 years
Cost: \$50 per student

Basic First Aid

Description: This is a basic first aid course that covers a wide range of common emergencies found in industrial and business settings. This is two-hour course that includes lecture, demonstration, and hands-on participation by students.

Course validation: 2 years
Cost per student \$40.00
Cost per student \$30.00 if combined with any CPR class

Most workplaces can meet educational safety needs by combining First Aid and CPR/AED. These two classes can be presented in one workday and are priced at \$80.00 for both. Classes can be offered at the worksite.

Note: CPR and First Aid classes are valid for two years.

Basic Life Support

Description: This course meets the certification and recertification needs of the health care workers. These classes include one and two rescuer emergency procedures for CPR and choking emergencies involving adults, children, and infants. Causes and treatment of sudden death are discussed.

Course validation period: 2 years
Certification Course: \$75.00

Bloodborne Pathogens

Description: This course has been developed to assist those who may have exposure to bloodborne pathogens. This course is in compliance with the Blood Borne Pathogen Standards set forth by the Occupational Safety and Health Administration.

Course validation period: 2 years
Cost: \$25.00

Price is reduced to \$20.00 if taught in combination with other classes

We specialize in providing onsite training. There is no charge for us to come to your location in the Roanoke area. If you would like us to provide a classroom we can do that also.

Call Marvin Huddleston at (540) 793-0764 or email mhuddleston@brsafety.com For more information on classes.
